

PHYSIO DAY

Sports-related Shoulder & Elbow Injuries

26/04/2019

Hotel Lacroma Valamar, Dubrovnik

SEEFORT

South East European Forum
on Orthopaedic and
Traumatology

Dear colleagues and friends

On behalf of the organizing committee it is our pleasure to invite you to the Physio Day on April 26th 2019, which will be held during the South-East European Forum on Orthopaedics and Traumatology (SEEFORT) in Dubrovnik.

Titled 'Sports-related shoulder and elbow injuries', the Physio Day is intended for physiotherapists, doctors and physicians working in the field of orthopaedics and sports. This will be an excellent opportunity to exchange knowledge, ideas and professional experiences related to sporting shoulder and elbow in both professional and recreational athletes.

In collaboration with the European Society of Shoulder and Elbow Rehabilitation (EUSSER) we have lined up a day full of high quality content from experienced practitioners across Europe. The morning will consist of presentations and discussions, while the afternoon is reserved for hands-on workshops where attendees will have a chance to practice assessment tests, exercises, mobilisation techniques and/or the use of dynamic tape to help shoulder and elbow problems.

All content will be delivered in English.
For more information about the
Physio Day programme please go to www.seeport.eu

We look forward to seeing you in Dubrovnik!
