

Theoretical-Practical Course **ELBOW FACTORS 2**

The purpose of the event is to illustrate new rehabilitative and pharmacological knowledge and operating strategies for treating rigid, traumatic and prosthetic elbows.

Ample space will be given to descriptions of new procedures for managing pain through the use of multimodal treatments, infiltrations, and physical manipulation, and the use of ultrasound diagnostics. Of interest is an examination of elbow rigidity of top-down (central nervous) and bottom-up (articular) origin.

The course also includes an ample practical session when participants can assist in the performance of tests for ultrasound clinical and instrumental diagnosis, therapeutic exercise, the use of physical therapies, and the application of elbow braces.

The practical session will also include the direct participation of the attendees, who can thus better learn the various methods of diagnosis and treatment in use.

ELBOW FACTORS 2

8:00 a.m. Registration of participants
8:30 a.m. Greetings from authorities

1st SESSION: THE PAINFUL ELBOW

Moderators: D. Creta, G. Porcellini, M. G. Benedetti
9:00 a.m. Pain from Elbow Tendinopathy • L. Di Filippo
9:15 a.m. Pain: Multimodal Treatment • A. Tognù
9:30 a.m. Pain: Intra-articular Infiltrative Treatment with Echo Guide • P. Pelotti
9:45 a.m. Pain and Rigidity: Instrumental Physical Therapies • G. Severini
10:00 a.m. Neurological Rigidity • G. Sanguinetti
10:15 a.m. Articular Rigidity • L. Pederzini
10:30 a.m. Discussion
Open coffee break

2nd SESSION: TRAUMATOLOGY AND PROSTHETICS

Moderators: M. Conti, A. Celli, I. Fusaro
11:00 a.m. Fractures: How to Treat Them? • R. Rotini
11:30 a.m. Rehabilitative Treatment of Fractures • V. Jones
12:00 a.m. Rehabilitative Treatment of Elbow Prosthetics • S. Stignani
12:15 a.m. Discussion
13:00 p.m. Lunch

1:30-5:30 p.m. Parallel Workshops

Moderators: P. Pillastrini, D. Tosarelli
1st: Basic Elements of Clinical and Ultrasound Evaluation (60')
E. Guerra, P. Pelotti
2nd: Braces: When, How, Why (60')
A. Marinelli
3rd: Rigidity and Pain: Manual Therapy and Exercise (60')
V. Jones
4th: The Elbow and Physical Therapy (60')
G. Severini
5:30 p.m. ECM Questionnaire: open replies to questions on covered topics
6:00 p.m. Close of Course

Faculty

MARIA GRAZIA BENEDETTI
